Syngenta Crop Protection, Inc.
P.O. Box 18300
Greensboro, NC 27419

Subject: Notification of Primary Brand Name Change and other minor revisions per PRN 98-10

Dear Mr. Parshley:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10, dated April 5, 2013, for EPA Registration Number 100-1485.

The Registration Division (RD) has conducted a review of your requests for applicability under PRN 98-10, and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with your application has been stamped "Notification," and the product record has been updated to reflect the new primary brand name: "Advion® Ant Bait Arena."

If you have any questions, please contact me directly at 703-308-8735 or email me at chao.julie@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Julie Chao", written over a horizontal line.

NOTIFICATION

APR 11 2013

Attention: Ms. Venus Eagle, PM Team 1, Insecticide-Rodenticide Branch
Registration Division

SUBJECT: NOTIFICATION TO REMOVE "DUPONT™" FROM PRODUCT NAME AND
OTHER CHANGES TO CONVERT PRODUCT TO SYNGENTA FOR DUPONT
ADVION ANT BAIT ARENA, EPA REG. NO. 100-1485

Dear Ms. Eagle:

Syngenta Crop Protection is submitting an application for a fast track non PRIA to revise the labeling for the subject product (formerly 352-664, new EPA Reg. No.100-1485) to remove the name "DuPont" from the product name and other associated labeling revisions for a product that has been transferred.

Please find the enclosed documents for the subject product:

- Application for Amended Pesticide Registration (EPA Form 8570-1)
- Copies of highlighted and clean product labeling

Fees for Service

Since this is a Fast Track non PRIA action, there is no fee associated with this Notification.

Syngenta is requesting an expedited review and approval to drop the name "DuPont" from the brand name. This was discussed in a recent telephone conversation between our offices and is urgently needed to allow Syngenta to have sales in 2013. In addition Syngenta is making the normal changes to a label when it has been transferred from one company to another, including not only the product name change noted previously, but also company name, EPA Reg. No., warranty, and emergency contact information for Syngenta.

If there are any questions concerning matters contained in this submission, please do not hesitate to contact myself at either 336-632-7207 or by e-mail at tom.parshley@syngenta.com. Also, you may contact my regulatory assistant Pat Eay at 336-632-6746 or by e-mail at pat.eay@syngenta.com.

Sincerely,

Thomas J. Parshley
Senior Regulatory Product Manager for Lawn and Garden
Syngenta Crop Protection, LLC

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)

CAUTION

Wash thoroughly with soap and water after handling bait stations.

RESIDENTIAL, INSTITUTIONAL, COMMERCIAL, AND INDUSTRIAL AREAS

Use sites include but are not limited to single and multi- family residential buildings, institutional, commercial and industrial facilities (including schools, hospitals, warehouses, apartments, supermarkets, restaurants, motels, hotels, food handling/storage establishments, food manufacturing and processing facilities/plants), and transportation equipment such as aircraft, trains, ships, boats, buses.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

Advion® Ant Bait Arena contains bait material with the active ingredient indoxacarb, an insecticide that acts through ingestion by ants. The activity of this insecticide allows adequate consumption of the bait by ants prior to onset of mortality. This provides enough time for foraging ants to return to nest sites and contaminate other colony members including larvae and queens. This action results in complete control of nuisance ant colonies. Placement of Advion Ant Bait Arena in and around structures will kill foraging ants, including fire ants and harvester ants, but for complete control of outdoor nests of fire ants or harvester ants, use a broadcast or direct mound treatment product.

Space sprays or other residual materials should not be applied directly to or near the bait arenas. Application of these materials can cause ants to behave abnormally and therefore reduce the potential of feeding on the bait material inside the station. Foraging ants must be able to feed on the bait and return to the colony.

Advion Ant Bait Arena should be placed in areas where ants are currently foraging or foraging activity is suspected. The ant bait arenas should be placed adjacent to active foraging trails when possible. Care should be exercised in order to reduce the disturbance to the natural foraging pattern. If placed along foraging trails properly, ants should detect and begin feeding at the bait station within approximately 30 minutes. An increase in foraging activity around the station indicates good recruitment.

In child resistant packaging. Still use care when placing ant bait arenas, especially in or around homes or residential buildings.

Indoor Use

1. Thoroughly inspect infested area to determine proper placement of Advion Ant Bait Arena.
2. Placement of 1-4 ant bait arenas where ants are observed is adequate to control normal ant infestations. Heavy infestations or infestations that are difficult to access or heavier infestations in larger areas may require application of additional arenas.
3. Advion Ant Bait Arena may be placed on vertical surfaces by using an adhesive on the bottom of the station.

4. In addition to being placed directly along foraging trails, place Advion Ant Bait Arena along walls, under appliances or industrial equipment, inside garbage containers, inside cabinets, under furniture, or any locations where there is ant activity or ants can potentially gain entry into a building or structure.
5. Do not place arenas on food preparation surfaces.
6. Inspect the arenas periodically and replace as needed or every 2 to 3 months.

Outdoor Use

1. Thoroughly inspect infested area to determine proper Advion Ant Bait Arena placement. Pay close attention to areas where ants may gain access to a building or structure.
2. Apply Advion Ant Bait Arena on or near building/structure exterior areas where ants are actively foraging such as near tree bases, along exterior walls, around garbage-collection areas, utility accesses, windows, vents, or along the ground next to structures.
3. Advion Ant Bait Arena may be placed on vertical surfaces by using an adhesive on the bottom of the station.
4. Placement of 1-4 ant bait arenas where ants are observed is adequate to control normal ant infestations. Heavy infestations or infestations that are difficult to access or heavier infestations in larger areas may require application of additional arenas
5. Inspect the arenas periodically and replace as needed or every 2 to 3 months.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Storage

Store in cool, dry place inaccessible to children and pets.

Disposal

If empty, do not reuse/refill this bait station. Place empty bait arena in trash or offer for recycling if available. If partially filled, call your local solid waste authority for disposal instructions or 1-800-334-9481.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of SYNGENTA CROP PROTECTION, LLC or Seller. To the extent permitted by applicable law, Buyer and User agree to hold SYNGENTA and Seller harmless for any claims relating to such factors.

SYNGENTA warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. To the extent permitted by applicable law: (1) this warranty does not extend to the use of this product contrary to label instructions or under conditions not reasonably foreseeable to or beyond the control of Seller or SYNGENTA, and, (2) Buyer and User assume the risk of any such use. **TO THE EXTENT PERMITTED BY APPLICABLE LAW, SYNGENTA MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS WARRANTED BY THIS LABEL.**

To the extent permitted by applicable law, in no event shall SYNGENTA be liable for any incidental, consequential or special damages resulting from the use or handling of this product. **TO THE EXTENT PERMITTED BY APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF SYNGENTA AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF SYNGENTA OR SELLER, THE REPLACEMENT OF THE PRODUCT.**

SYNGENTA and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of SYNGENTA.
